Adding skills to a campaign points at another guide

The skill groups chapter says that adding skill groups to campaigns is covered in Configuring Skills in the Campaign Administrator’s Guide. It does not paste that guide into the chapter.
The Configuring Skills page and the Skill Transfer module page did not return a body in this check. Priority numbers, an ignore-order switch, and a Default queue label are not copied here. If you need them, open those pages yourself and mark anything you cannot read as confirm.
