The evaluation list is forms, queries, coaching, and assignment  Learn it in 5 minutes

The WEM quality list names call, screen, and digital-channel transcription capture, real-time call and desktop monitoring, flexible evaluation form creation, query, coaching packages, and automated evaluation assignment.
The same list ends with pre-built CRM integration for Salesforce, Zendesk, Oracle, and ServiceNow. That is a quality-page list. It is not a promise that every floor bought every name.
