Q: Outbound, what comes first?
A: Skill groups, then users, lists, dispositions, profiles, campaigns.
Foundations and the domain

Q: Which builds add IVR?
A: Inbound and autodial.
Foundations and the domain

Q: What is a skill group?
A: Agents and supervisors for a campaign queue.
Foundations and the domain

Q: What is a domain?
A: The VCC tenant.
Foundations and the domain

Q: Domain boundary?
A: Users, lists, skills, and campaigns stay in that domain.
Foundations and the domain

Q: CUCM partition equivalent?
A: There isn’t one. Teach domain, skills, campaigns.
Foundations and the domain

Q: Skill membership?
A: Agent or supervisor users, and a user may have several skills.
Foundations and the domain

Q: Multiple skills on a campaign?
A: Yes.
Foundations and the domain

Q: Reporting menu missing?
A: Check the Reporting role and a reporting permission.
Foundations and the domain

Q: Supervisor in a skill?
A: Yes, the skill topic allows it.
Foundations and the domain

Q: Call variable permission?
A: User Can Edit Call Variables.
Foundations and the domain

Q: Who edits IVR?
A: An administrator.
Foundations and the domain

Q: Three types?
A: Inbound, outbound, autodial.
Foundations and the domain

Q: Stopped inbound?
A: Busy signal.
Foundations and the domain

Q: What is blended?
A: Agents working inbound and outbound, not a fourth type.
Foundations and the domain

Q: Autodial needs?
A: List plus prompts and IVR, per the planning topic.
Foundations and the domain

Q: Final disposition?
A: Stops all numbers on that record for the campaign.
Foundations and the domain

Q: Which types load lists?
A: Outbound and autodial.
Foundations and the domain

Q: What is number1?
A: The first phone field the dial order can use.
Foundations and the domain

Q: Does upload start dialing?
A: No.
Foundations and the domain

Q: Default system redials?
A: Often five, if the default count is left in place.
Foundations and the domain

Q: What does reset change?
A: Selected codes on lists currently loaded.
Foundations and the domain

Q: Safe reset rule?
A: Only codes you are willing to dial.
Foundations and the domain

Q: Batch update?
A: Manual rows or scheduled CSV.
Foundations and the domain

Q: Profiles per campaign?
A: One.
Foundations and the domain

Q: Can a profile be shared?
A: Yes, across campaigns.
Foundations and the domain

Q: What can it override?
A: Defaults such as the ANI.
Foundations and the domain

Q: How can it change later?
A: Workflow rules.
Foundations and the domain

Q: Mac ARM and Java admin?
A: Not supported. Use the web administrator.
VCC administration

Q: Why Plus?
A: Web apps do not need Java SE.
VCC administration

Q: Plus transport?
A: HTTPS and WSS.
VCC administration

Q: IE exception?
A: IE 11 for Oracle Service Cloud only.
VCC administration

Q: Profile or account first?
A: Profile, then account.
VCC administration

Q: Who joins a skill?
A: Agent or supervisor users.
VCC administration

Q: Missing permission symptom?
A: It looks like a missing feature.
VCC administration

Q: Call variable edits?
A: A named permission on the administrator role.
VCC administration

Q: Inbound tab name?
A: Outbound Skills.
VCC administration

Q: Outbound tab name?
A: Skills.
VCC administration

Q: Multiple skills per campaign?
A: Yes.
VCC administration

Q: Multiple skills per user?
A: Yes.
VCC administration

Q: Prompts before scripts?
A: Yes, on the inbound and autodial roadmap.
VCC administration

Q: Skill greeting vs Play prompt?
A: Different objects.
VCC administration

Q: Stopped campaign?
A: Busy, prompt unheard.
VCC administration

Q: TTS?
A: The query example uses a TTS prompt on Play.
VCC administration

Q: IVR module?
A: Set DNC.
VCC administration

Q: Is a disposition the same?
A: Not documented as the same object.
VCC administration

Q: Report category?
A: Do Not Call Reports.
VCC administration

Q: Product grouping?
A: With time-zone rules and Certified Caller.
VCC administration

Q: Efficiency Mode?
A: Off for live calls.
VCC administration

Q: Analog headsets?
A: Not supported.
VCC administration

Q: 5G?
A: Not supported.
VCC administration

Q: ADP bandwidth?
A: 128 kbps in the table, G.711 default.
VCC administration

Q: Skill voicemail?
A: Yes, with its own greeting.
VCC administration

Q: TCPA timeout state?
A: Not Ready, no auto-dial.
VCC administration

Q: Where do dialer settings live?
A: On the campaign, not in a side spreadsheet.
VCC administration

Q: Profiles and pop-ups?
A: Profiles can control them.
VCC administration

Q: Stopped inbound?
A: Busy.
Inbound campaigns

Q: What runs after answer?
A: The campaign IVR.
Inbound campaigns

Q: What is DNIS?
A: The called number presented to the campaign.
Inbound campaigns

Q: First busy check?
A: Is the campaign running?
Inbound campaigns

Q: Script after agent connect?
A: Complete.
Inbound campaigns

Q: Long queue options?
A: Voicemail and third-party forward.
Inbound campaigns

Q: Priority?
A: Supported in the inbound topic.
Inbound campaigns

Q: Branching?
A: In the IVR script.
Inbound campaigns

Q: Hold vs voicemail?
A: Different.
Inbound campaigns

Q: Third party module?
A: Third Party Transfer.
Inbound campaigns

Q: Voicemail module?
A: Voicemail Transfer.
Inbound campaigns

Q: Stopped campaign as overflow?
A: No. Callers hear busy.
Inbound campaigns

Q: Where is service level?
A: On the skill group.
Inbound campaigns

Q: Where is IVR priority?
A: Skill Transfer’s priority tab.
Inbound campaigns

Q: Are they the same knob?
A: No.
Inbound campaigns

Q: Who says inbound can be prioritized?
A: The inbound campaign topic.
Inbound campaigns

Q: When is the schedule set?
A: After scripts exist.
Inbound campaigns

Q: Nightly stop?
A: Causes busy, not a closed prompt.
Inbound campaigns

Q: Which types have the schedule topic?
A: Autodial and inbound.
Inbound campaigns

Q: Campaign state at night?
A: Running, with a different script.
Inbound campaigns

Q: Where?
A: Skill Transfer General tab.
Inbound campaigns

Q: Default?
A: 0.
Inbound campaigns

Q: On Hold in reports?
A: No.
Inbound campaigns

Q: Why set it above 0?
A: A gap before the next call.
Inbound campaigns

Q: Are the seven checks trunk settings?
A: No.
Inbound campaigns

Q: Wrong skill tab?
A: Empty queue.
Inbound campaigns

Q: Night busy?
A: State or schedule.
Inbound campaigns

Q: Then what?
A: Trunk and topology.
Inbound campaigns

Q: Does upload dial?
A: No.
Outbound lists

Q: Which lists does reset touch?
A: Lists loaded in the campaign.
Outbound lists

Q: number1?
A: A phone field.
Outbound lists

Q: Sales list campaign type?
A: Outbound or autodial.
Outbound lists

Q: Filter vs vertical?
A: Different.
Outbound lists

Q: Profiles at once?
A: One.
Outbound lists

Q: ANI override?
A: On the profile.
Outbound lists

Q: Pop-ups?
A: A profile can control them.
Outbound lists

Q: Default list mode?
A: List penetration.
Outbound lists

Q: Vertical in one sentence?
A: Finish one record’s numbers, then move on.
Outbound lists

Q: Compass words?
A: Use the definitions, not ’vertical’ as a direction.
Outbound lists

Q: Final disposition?
A: Stops the whole record.
Outbound lists

Q: Reset Sale?
A: Only if you mean to call them again.
Outbound lists

Q: Which lists?
A: Currently loaded.
Outbound lists

Q: Position reset?
A: Back toward the top.
Outbound lists

Q: Proof?
A: List details.
Outbound lists

Q: US abandon window?
A: Rolling 30 days.
Outbound lists

Q: UK window?
A: 24 hours.
Outbound lists

Q: Who sets US vs UK?
A: A Five9 representative, per the topic.
Outbound lists

Q: Numeric default in this lab?
A: Not stated. Read the domain.
Outbound lists

Q: Where is voice detection level?
A: Campaign dialing defaults.
Outbound lists

Q: Published accuracy?
A: Not in this lab.
Outbound lists

Q: Automatic voicemail?
A: Named on the outbound product page.
Outbound lists

Q: False machine?
A: A live person misses the agent.
Outbound lists

Q: Where is local caller ID marketed?
A: Outbound product page.
Outbound lists

Q: Which object overrides ANI?
A: Campaign profile.
Outbound lists

Q: Is that STIR/SHAKEN?
A: No. Certified Caller is separate.
Outbound lists

Q: Unassigned profile?
A: No effect.
Outbound lists

Q: Why preview?
A: Context before the dial.
Dialer modes and pacing

Q: Same as TCPA?
A: No. TCPA removes automatic dialing.
Dialer modes and pacing

Q: Overdial?
A: Not the design.
Dialer modes and pacing

Q: Still needs a list?
A: Yes.
Dialer modes and pacing

Q: One per agent?
A: That is the outbound page.
Dialer modes and pacing

Q: Ten-agent hint?
A: Dialer page guidance, not a proven hard limit.
Dialer modes and pacing

Q: Why low abandon?
A: The agent is reserved.
Dialer modes and pacing

Q: Simulator?
A: Teaching model.
Dialer modes and pacing

Q: Who sets the ratio?
A: The administrator.
Dialer modes and pacing

Q: Who is it for?
A: Small team, large list.
Dialer modes and pacing

Q: Extra live answer?
A: An abandon.
Dialer modes and pacing

Q: Where is the brake?
A: Abandon monitor and max percent.
Dialer modes and pacing

Q: Ten-agent line?
A: Dialer page guidance.
Dialer modes and pacing

Q: US window?
A: 30 days.
Dialer modes and pacing

Q: Test article?
A: Mixed field note.
Dialer modes and pacing

Q: Simulator window?
A: Not Five9’s 30 days.
Dialer modes and pacing

Q: Where does the mode exist?
A: Domains enabled for it, with no other mode.
Dialer modes and pacing

Q: Paste?
A: Blocked.
Dialer modes and pacing

Q: Dial enables when?
A: The typed number matches.
Dialer modes and pacing

Q: Timeout?
A: Not Ready, no auto-dial.
Dialer modes and pacing

Q: Why defaults?
A: A stated compliance posture.
Dialer modes and pacing

Q: Example warning?
A: Max abandon percent.
Dialer modes and pacing

Q: US vs UK?
A: 30 days vs 24 hours.
Dialer modes and pacing

Q: Where is the legal text?
A: The agency rule, not this lab.
Dialer modes and pacing

Q: No consent?
A: TCPA manual touch on an enabled domain.
Dialer modes and pacing

Q: Forty agents?
A: Predictive, eyes open.
Dialer modes and pacing

Q: No drops, small team?
A: Progressive.
Dialer modes and pacing

Q: System of record?
A: The domain dialog.
Dialer modes and pacing

Q: What is blended?
A: Agents moving across inbound and outbound.
Blended operations and autodial

Q: Is it a campaign type?
A: Not in the planning list.
Blended operations and autodial

Q: Predictive plus shared agents?
A: Availability gets stolen.
Blended operations and autodial

Q: How do you build it?
A: Skills and running campaigns.
Blended operations and autodial

Q: Planning extras?
A: Prompts and IVR.
Blended operations and autodial

Q: Needs a list?
A: Yes.
Blended operations and autodial

Q: Skill tab?
A: Outbound Skills.
Blended operations and autodial

Q: Read-first alternative?
A: Outbound preview.
Blended operations and autodial

Q: Numeric ratio in this lesson?
A: None.
Blended operations and autodial

Q: Steal rule?
A: Write who may take the agent.
Blended operations and autodial

Q: Predictive on a shared pod?
A: Exposed.
Blended operations and autodial

Q: Service level?
A: A measure, not the dialer.
Blended operations and autodial

Q: TCPA timeout?
A: Not Ready, no dial.
Blended operations and autodial

Q: Count them as free?
A: No.
Blended operations and autodial

Q: Which report category?
A: Agent reports.
Blended operations and autodial

Q: Adding lines?
A: Makes abandon worse.
Blended operations and autodial

Q: Final code?
A: Stops the record.
Blended operations and autodial

Q: Pause vs wrap?
A: Different gaps.
Blended operations and autodial

Q: Default system redials?
A: Often five.
Blended operations and autodial

Q: Simulator wrap?
A: Teaching delay.
Blended operations and autodial

Q: Blend includes digital?
A: The outbound page says so.
Blended operations and autodial

Q: Plus promise?
A: One screen.
Blended operations and autodial

Q: Text blocked?
A: Antivirus is a documented suspect.
Blended operations and autodial

Q: Chat and predictive?
A: The agent is busy.
Blended operations and autodial

Q: No screen, no design?
A: Correct.
Blended operations and autodial

Q: Simulator equals domain?
A: No.
Blended operations and autodial

Q: US window?
A: 30 days.
Blended operations and autodial

Q: Dedicated pod?
A: Outside the steal rule.
Blended operations and autodial

Q: Is Hangup in the chapter list?
A: Not in the list this lab read.
IVR scripts

Q: When does Skill Transfer finish the script?
A: When an agent connects.
IVR scripts

Q: Bench JSON?
A: Not a VCC import.
IVR scripts

Q: Menu exists?
A: Yes.
IVR scripts

Q: ZIP module?
A: Input.
IVR scripts

Q: Why No Match?
A: Wrong input needs an exit.
IVR scripts

Q: Speech modules?
A: Voice Input and Natural Language Processing.
IVR scripts

Q: TTS?
A: Yes, in the example.
IVR scripts

Q: Two ways?
A: If/Else.
IVR scripts

Q: Three ways?
A: Case.
IVR scripts

Q: Who writes the condition?
A: You do.
IVR scripts

Q: Caller choice?
A: Menu, not If/Else.
IVR scripts

Q: Either skill or both?
A: Either.
IVR scripts

Q: Report recommendation?
A: One skill per module.
IVR scripts

Q: No skill?
A: Default queue.
IVR scripts

Q: Article’s default disposition?
A: Abandon.
IVR scripts

Q: Example request?
A: XML web service POST.
IVR scripts

Q: Why script variables?
A: No agent on that call.
IVR scripts

Q: History backfill?
A: No.
IVR scripts

Q: Lookup exists?
A: Yes.
IVR scripts

Q: Jump to another script?
A: Foreign Script.
IVR scripts

Q: Opt out?
A: Set DNC.
IVR scripts

Q: Digital keys?
A: Build permission plus a task key.
IVR scripts

Q: Third party stays on your skill?
A: No.
IVR scripts

Q: Which header?
A: X-Frame-Options.
IVR scripts

Q: Trust the old browser table?
A: No. Retest.
IVR scripts

Q: Who turns it on?
A: A VCC administrator.
IVR scripts

Q: Voice versus visual?
A: Different surfaces.
IVR scripts

Q: Membership?
A: Agent or supervisor.
Skills routing

Q: Empty skill?
A: No delivery.
Skills routing

Q: Service level?
A: On the skill.
Skills routing

Q: Several skills per user?
A: Yes.
Skills routing

Q: Inbound tab?
A: Outbound Skills.
Skills routing

Q: Ready but wrong tab?
A: No offer.
Skills routing

Q: Autodial?
A: Same tab as inbound.
Skills routing

Q: Where documented?
A: Skill groups topic.
Skills routing

Q: Any or all?
A: Any one skill.
Skills routing

Q: Report tip?
A: One skill.
Skills routing

Q: Deliberate pool?
A: Allowed if intended.
Skills routing

Q: No selection?
A: Default.
Skills routing

Q: Same number?
A: No.
Skills routing

Q: What does ignore-order do?
A: Uses agent skill level.
Skills routing

Q: Click-path quoted here?
A: No.
Skills routing

Q: Switch off?
A: List order stands.
Skills routing

Q: No selection?
A: Default queue.
Skills routing

Q: Label?
A: Default.
Skills routing

Q: User with no skills?
A: Catch-all eligible.
Skills routing

Q: Safe pattern?
A: Name the skill.
Skills routing

Q: Target without people?
A: Still misses.
Skills routing

Q: What steers?
A: Priority.
Skills routing

Q: Where is the target?
A: The skill.
Skills routing

Q: Easier target?
A: A new definition, not new staff.
Skills routing

Q: Greeting object?
A: Skill audio.
Skills routing

Q: Default callback code?
A: Abandon. Replace it.
Skills routing

Q: Why a specific code?
A: So the promise is visible.
Skills routing

Q: Cell mailbox?
A: Not this object.
Skills routing

Q: Form factor?
A: One screen.
Agent Desktop Plus

Q: Transcription source?
A: Engage page.
Agent Desktop Plus

Q: Adapter voice stack?
A: Same underlying technology, per the desktop page.
Agent Desktop Plus

Q: Assist bandwidth?
A: 12 kbps extra.
Agent Desktop Plus

Q: Adapter transport?
A: HTTPS and WSS.
Agent Desktop Plus

Q: Proxy?
A: Must support WSS.
Agent Desktop Plus

Q: TLS 1.1?
A: Not supported.
Agent Desktop Plus

Q: Pop down, voice up?
A: Look at WSS.
Agent Desktop Plus

Q: Where is Assist named?
A: Engage.
Agent Desktop Plus

Q: Studio’s first named app?
A: Summaries, among Agent Assist.
Agent Desktop Plus

Q: Universal model name?
A: Do not assume one.
Agent Desktop Plus

Q: Why the same screen?
A: So the agent sees it.
Agent Desktop Plus

Q: What does Plus show from WEM?
A: Schedules, adherence, time off, evaluations.
Agent Desktop Plus

Q: Break equals idle?
A: No.
Agent Desktop Plus

Q: CRM path?
A: WFO connectors, per the desktop page.
Agent Desktop Plus

Q: Adherence?
A: Plan versus actual.
Agent Desktop Plus

Q: Avast example means?
A: AV can block text.
Agent Desktop Plus

Q: Blank text suspect?
A: Antivirus.
Agent Desktop Plus

Q: Dropped call suspect?
A: Efficiency Mode, among others.
Agent Desktop Plus

Q: Change both at once?
A: No.
Agent Desktop Plus

Q: Analog?
A: Not supported.
Agent Desktop Plus

Q: 5G agent path?
A: Not supported.
Agent Desktop Plus

Q: Default codec in that table?
A: G.711.
Agent Desktop Plus

Q: One-way latency?
A: Under 150 ms.
Agent Desktop Plus

Q: One-way audio next stop?
A: NAT and SIP.
Agent Desktop Plus

Q: Efficiency Mode?
A: Desktop review.
Agent Desktop Plus

Q: WSS?
A: Desktop review.
Agent Desktop Plus

Q: Skip the schedule?
A: You will mis-count people.
Agent Desktop Plus

Q: Verint?
A: A named partner path, not the only path.
Workforce engagement

Q: Data sheet pieces?
A: Recording, QM, WFM, analytics, surveys, connectors.
Workforce engagement

Q: Who upgrades?
A: Five9, per the page.
Workforce engagement

Q: Guess the vendor?
A: No.
Workforce engagement

Q: Does WFM pick preview vs power?
A: No. It staffs.
Workforce engagement

Q: Break?
A: Not available.
Workforce engagement

Q: Adherence?
A: Plan versus actual.
Workforce engagement

Q: Service level needs?
A: The people.
Workforce engagement

Q: Where do agents read evaluations?
A: Plus, per the desktop page.
Workforce engagement

Q: Hold recorded?
A: Yes, per the EULA.
Workforce engagement

Q: Who handles consent?
A: The customer, per the EULA.
Workforce engagement

Q: Wrong form?
A: Teaches the wrong work.
Workforce engagement

Q: Survey versus abandon?
A: Different.
Workforce engagement

Q: A topic without an owner?
A: A poster.
Workforce engagement

Q: Screens identical?
A: Do not assume.
Workforce engagement

Q: Surveys in the data sheet?
A: Yes.
Workforce engagement

Q: VCC audio rule?
A: 30 days or successful offload, or the contract.
Workforce engagement

Q: Failed copy?
A: The clock continues.
Workforce engagement

Q: E911 audio?
A: 30 days on that page.
Workforce engagement

Q: Agent data?
A: 60 days on that page.
Workforce engagement

Q: Time off in Plus?
A: Named.
Workforce engagement

Q: Shift bidding?
A: Named, rules not copied here.
Workforce engagement

Q: Bid without a schedule change?
A: The dialer never sees it.
Workforce engagement

Q: Second login?
A: Connector probably unused.
Workforce engagement

Q: Approve time off here?
A: No.
Workforce engagement

Q: Pacing bench?
A: A model.
Workforce engagement

Q: Roster of record?
A: The suite.
Workforce engagement

Q: Recording after the clock?
A: The offload.
Workforce engagement

Q: Region matters?
A: Yes. Use the matching portal.
IVA and GenAI

Q: Legacy hosts listed?
A: Yes.
IVA and GenAI

Q: How to find SIP?
A: DNS SRV.
IVA and GenAI

Q: Paste Studio ports onto every trunk?
A: No. Confirm the family.
IVA and GenAI

Q: Digital key permission?
A: Build.
IVA and GenAI

Q: Task type in that article?
A: ChatBot.
IVA and GenAI

Q: Where does the key go?
A: The VCC side.
IVA and GenAI

Q: Same as voice?
A: Do not assume.
IVA and GenAI

Q: No failure branch?
A: The caller is stranded.
IVA and GenAI

Q: No skill selected?
A: Default.
IVA and GenAI

Q: History?
A: Enable a reporting call variable. New calls only.
IVA and GenAI

Q: Engage handoff?
A: With context.
IVA and GenAI

Q: Engine-agnostic?
A: Yes.
IVA and GenAI

Q: First named app?
A: Agent Assist summaries.
IVA and GenAI

Q: Test data?
A: Real calls, per the page.
IVA and GenAI

Q: Untested prompt?
A: Not the control the page describes.
IVA and GenAI

Q: Same block?
A: No.
IVA and GenAI

Q: Studio handoff?
A: IVA Transfer.
IVA and GenAI

Q: Short speech menu?
A: An IVR module can do it.
IVA and GenAI

Q: Wrong name?
A: Wrong system.
IVA and GenAI

Q: Prompt edit?
A: A release.
IVA and GenAI

Q: Test on?
A: Call data.
IVA and GenAI

Q: Same as a WAV?
A: No.
IVA and GenAI

Q: Invented policy?
A: Not ready.
IVA and GenAI

Q: Skip region?
A: The review is incomplete.
IVA and GenAI

Q: Build permission source?
A: The digital IVA article.
IVA and GenAI

Q: Why the clock?
A: Audio expires.
IVA and GenAI

Q: Does this lab host Studio?
A: No.
IVA and GenAI

Q: ServiceNow listed?
A: Yes.
CRM integrations

Q: Homegrown CRM?
A: CRM SDK.
CRM integrations

Q: URL pop versus adapter?
A: Name which one.
CRM integrations

Q: Proxy?
A: Must support WSS.
CRM integrations

Q: Is 2.46 forever?
A: No. Recheck the PDF.
CRM integrations

Q: SAML?
A: 2.0 in that PDF.
CRM integrations

Q: Lightning?
A: Supported.
CRM integrations

Q: IE 11 remains for Salesforce?
A: No. The exception is Oracle Service Cloud.
CRM integrations

Q: Workspaces?
A: Service Operations and Configurable.
CRM integrations

Q: Those three names?
A: Releases in the PDF.
CRM integrations

Q: Off-list release?
A: Do not call it supported.
CRM integrations

Q: Forever?
A: No.
CRM integrations

Q: Epic listed?
A: Yes.
CRM integrations

Q: Salesforce package fixes Zendesk?
A: No.
CRM integrations

Q: NetSuite package in this lab?
A: Not stated.
CRM integrations

Q: IE exception scope?
A: Oracle Service Cloud only.
CRM integrations

Q: SDK named?
A: Yes.
CRM integrations

Q: Connectors named?
A: Yes.
CRM integrations

Q: Who retests custom code?
A: You.
CRM integrations

Q: URL pop scope?
A: Smaller than a full adapter.
CRM integrations

Q: Voice proves the pop?
A: No.
CRM integrations

Q: Profiles and pop-ups?
A: Yes, they can control them.
CRM integrations

Q: TLS 1.1?
A: Unsupported.
CRM integrations

Q: Dead URL?
A: Blank screen.
CRM integrations

Q: IVR Salesforce module?
A: A script block.
CRM integrations

Q: Einstein module?
A: Named in the chapter.
CRM integrations

Q: ZIP example?
A: Query, not the Salesforce module.
CRM integrations

Q: After connect?
A: The adapter.
CRM integrations

Q: Five9 ITSP?
A: One of the three stories.
SIP and carriers

Q: Customer ITSP lands on?
A: Five9 SBCs.
SIP and carriers

Q: Gateway names?
A: Avaya, Cisco, Asterisk.
SIP and carriers

Q: Does Cisco here import UCCX?
A: No.
SIP and carriers

Q: DNS?
A: SRV preferred.
SIP and carriers

Q: Default codec?
A: G.711.
SIP and carriers

Q: 20 ms?
A: Practitioner, uncertain, not a PDF quote here.
SIP and carriers

Q: Digit RFC?
A: 4733.
SIP and carriers

Q: Plus?
A: 128 kbps.
SIP and carriers

Q: Java agent?
A: 88 kbps.
SIP and carriers

Q: Assist?
A: About +12.
SIP and carriers

Q: Satellite?
A: Not supported.
SIP and carriers

Q: Double NAT?
A: No.
SIP and carriers

Q: UDP idle?
A: 30 seconds.
SIP and carriers

Q: Shorter timer?
A: Keepalives.
SIP and carriers

Q: Split tunnel?
A: Do not exclude Five9.
SIP and carriers

Q: Handoff?
A: Layer 3.
SIP and carriers

Q: Failover?
A: BGP.
SIP and carriers

Q: London?
A: LD5 in that PDF.
SIP and carriers

Q: Is the list forever?
A: No.
SIP and carriers

Q: TLS floor?
A: 1.2.
SIP and carriers

Q: TLS 1.1?
A: Not supported.
SIP and carriers

Q: Studio 5060 on every trunk?
A: No.
SIP and carriers

Q: 5061 caveat?
A: Beta in that PDF.
SIP and carriers

Q: Headset?
A: USB noise-canceling.
SIP and carriers

Q: Analog?
A: Not supported.
SIP and carriers

Q: Wireless at scale?
A: Not recommended.
SIP and carriers

Q: Efficiency Mode?
A: Can drop live calls.
SIP and carriers

Q: Web2Campaign?
A: A named API.
APIs and reporting

Q: Reporting versus Statistics?
A: Both named, not the same label.
APIs and reporting

Q: Homegrown CRM?
A: CRM SDK.
APIs and reporting

Q: SOAP or REST?
A: Do not guess per family.
APIs and reporting

Q: Role?
A: Reporting, plus a permission.
APIs and reporting

Q: IVR category?
A: Yes.
APIs and reporting

Q: Admin without the role?
A: No standard reports.
APIs and reporting

Q: Digital versus Legacy Digital?
A: Both named.
APIs and reporting

Q: Three layouts?
A: Tabular, Summary, Matrix.
APIs and reporting

Q: Matrix to CSV?
A: Not directly.
APIs and reporting

Q: Row-level?
A: Tabular.
APIs and reporting

Q: Totals?
A: Summary.
APIs and reporting

Q: Call log window?
A: About 60 days unless extended, per that article.
APIs and reporting

Q: Audio?
A: 30 days, offload, or contract whichever is sooner.
APIs and reporting

Q: Same clock?
A: No.
APIs and reporting

Q: Why date the article?
A: The window can change.
APIs and reporting

Q: Backfill?
A: No.
APIs and reporting

Q: Permission name?
A: User Can Edit Call Variables.
APIs and reporting

Q: All dispositions includes custom?
A: No.
APIs and reporting

Q: Both switches?
A: Permission and the reporting flag.
APIs and reporting

Q: Prebuilt names?
A: Zoom Phone and Teams, among the product lines.
APIs and reporting

Q: Local Teams client?
A: About 320 kbps.
APIs and reporting

Q: URL pop?
A: Web Connector.
APIs and reporting

Q: Does prebuilt erase bandwidth?
A: No.
APIs and reporting

Q: Agent data?
A: 60 days.
APIs and reporting

Q: Campaign state?
A: 120 days.
APIs and reporting

Q: DIDs after closure?
A: 90 days.
APIs and reporting

Q: Disabled domain?
A: 120 days after closure.
APIs and reporting

Q: Official importer?
A: None cited here.
From UCCX and UCCE

Q: Cisco in the PDF?
A: A gateway type.
From UCCX and UCCE

Q: Build order?
A: Skills through profiles, then campaigns.
From UCCX and UCCE

Q: Blended?
A: Not a fourth campaign type.
From UCCX and UCCE

Q: CSQ maps toward?
A: A skill group, as a teaching map.
From UCCX and UCCE

Q: Partitions?
A: Not in Five9. Use domains.
From UCCX and UCCE

Q: Two tenants?
A: Two domains.
From UCCX and UCCE

Q: Precision attributes?
A: Redesign, do not invent a paste field.
From UCCX and UCCE

Q: Import the .aef?
A: No.
From UCCX and UCCE

Q: Greeting?
A: Play.
From UCCX and UCCE

Q: Queue?
A: Skill Transfer.
From UCCX and UCCE

Q: Builder JSON?
A: Learning model only.
From UCCX and UCCE

Q: Mode names?
A: Preview, progressive, power, predictive, manual touch.
From UCCX and UCCE

Q: Simulator?
A: A teaching model.
From UCCX and UCCE

Q: Copy the Cisco ratio into abandon %?
A: No.
From UCCX and UCCE

Q: Numeric default?
A: Not stated here.
From UCCX and UCCE

Q: Lists in the script file?
A: No.
From UCCX and UCCE

Q: ANI lives on?
A: The campaign profile.
From UCCX and UCCE

Q: Certified Caller?
A: A separate project.
From UCCX and UCCE

Q: Stopped inbound?
A: Does not answer.
From UCCX and UCCE

Q: INVITE failures?
A: Check both sides.
From UCCX and UCCE

Q: Extensions as DNIS?
A: Do not assume it.
From UCCX and UCCE

Q: 20 ms?
A: Uncertain practitioner note.
From UCCX and UCCE

Q: SRV?
A: Preferred on the Five9 side.
From UCCX and UCCE

Q: Busy DNIS?
A: Campaign not running.
From UCCX and UCCE

Q: E911 address?
A: Where the agent is.
From UCCX and UCCE

Q: Test one path first?
A: Yes.
From UCCX and UCCE

Q: Why test the pop?
A: It is a separate channel.
From UCCX and UCCE

Q: Prefix?
A: None. Dial 911.
Safety and compliance

Q: Partner on the sheet?
A: RedSky.
Safety and compliance

Q: Wrong address?
A: The EULA says the call can fail.
Safety and compliance

Q: Same map on both docs?
A: No. Cite which one.
Safety and compliance

Q: Dispatchable?
A: Where responders can find the person.
Safety and compliance

Q: History fields?
A: Time, user, number, location, recording, SIP invite.
Safety and compliance

Q: History instead of registration?
A: No.
Safety and compliance

Q: A move?
A: Register again.
Safety and compliance

Q: Who owns notice?
A: The customer.
Safety and compliance

Q: Hold recorded?
A: The EULA says it can be.
Safety and compliance

Q: Transfer?
A: Can still be recorded.
Safety and compliance

Q: Universal script?
A: No.
Safety and compliance

Q: E911 recordings?
A: 30 days.
Safety and compliance

Q: Agent data?
A: 60 days.
Safety and compliance

Q: DIDs?
A: 90 days after closure.
Safety and compliance

Q: Audio?
A: Sooner of 30 days, offload, or contract.
Safety and compliance

Q: Certified Caller?
A: STIR/SHAKEN program.
Safety and compliance

Q: Profile ANI equals attestation?
A: No.
Safety and compliance

Q: Regulators named?
A: FCC and CRTC.
Safety and compliance

Q: Can you say the profile signs calls?
A: No.
Safety and compliance

Q: Warning?
A: Yes, if you change the max abandon percentage.
Safety and compliance

Q: US window?
A: Rolling 30 days.
Safety and compliance

Q: UK window?
A: 24 hours.
Safety and compliance

Q: Who sets the window?
A: A Five9 representative.
Safety and compliance

Q: Paste?
A: Blocked.
Safety and compliance

Q: When does Dial enable?
A: When the typed number matches.
Safety and compliance

Q: Timeout?
A: Not Ready, no auto dial.
Safety and compliance

Q: Skip permission?
A: User Can Skip Contact Records in TCPA Manual Touch.
Safety and compliance

Q: WEM equals the dialer?
A: No.
Ecosystem

Q: E911?
A: Its own location service.
Ecosystem

Q: Pop equals trunk?
A: No.
Ecosystem

Q: Uncited boxes?
A: Leave them off.
Ecosystem

Q: What does the page include?
A: WFM, QM, analytics, surveys, recording, Verint.
Ecosystem

Q: Scores move skills by themselves?
A: No.
Ecosystem

Q: Who upgrades the delivered solution?
A: Five9, per the page.
Ecosystem

Q: Which retention text?
A: The retention page.
Ecosystem

Q: Wallboard versus report?
A: Different pipes.
Ecosystem

Q: Statistics API?
A: A named family.
Ecosystem

Q: Reporting role?
A: Gates standard reports.
Ecosystem

Q: Matrix as CSV?
A: No.
Ecosystem

Q: Default model named here?
A: No.
Ecosystem

Q: IVA Transfer?
A: A real module.
Ecosystem

Q: Digital handoff?
A: A Studio task key.
Ecosystem

Q: No exit?
A: A dead end.
Ecosystem

Q: Epic listed?
A: Yes.
Ecosystem

Q: Local Teams?
A: About 320 kbps.
Ecosystem

Q: Blank card, live voice?
A: Adapter incident.
Ecosystem

Q: SDK?
A: Unlisted CRMs.
Ecosystem

Q: No page?
A: Mark the word local.
Ecosystem

Q: Two profiles?
A: Different objects.
Ecosystem

Q: Blended?
A: Not a campaign type.
Ecosystem

Q: Partition?
A: A visiting word.
Ecosystem

Q: Missing row?
A: No citation yet.
Ecosystem

Q: RedSky versus ITSP?
A: Different roles.
Ecosystem

Q: Studio versus Equinix?
A: Different lists.
Ecosystem

Q: Two Salesforces?
A: Module versus adapter.
Ecosystem

Q: Exam code in this lab?
A: None.
Certifications and practice

Q: Formats?
A: Online, webinars, ILT, train-the-trainer, custom.
Certifications and practice

Q: Assessments?
A: Mentioned, no code quoted.
Certifications and practice

Q: Invented codes?
A: Ignore them.
Certifications and practice

Q: What is the badge?
A: IVA sales, for partners.
Certifications and practice

Q: Questions?
A: 20.
Certifications and practice

Q: Pass mark?
A: 80 percent.
Certifications and practice

Q: Admin substitute?
A: No.
Certifications and practice

Q: Practice equals the planning order?
A: Yes.
Certifications and practice

Q: Stopped campaign?
A: Busy DNIS.
Certifications and practice

Q: Invent a percent?
A: No.
Certifications and practice

Q: Reporting role?
A: Separate.
Certifications and practice

Q: 2.46?
A: Dated PDF fact.
Certifications and practice

Q: ServiceNow names?
A: Australia, Zurich, Yokohama, in that reading.
Certifications and practice

Q: JRE updates?
A: 421, 451, 461.
Certifications and practice

Q: Curriculum brief equals the JRE list?
A: No.
Certifications and practice

Q: Four beats?
A: Object, behavior, page, gap.
Certifications and practice

Q: Invent a port?
A: No. Stop.
Certifications and practice

Q: Cisco map?
A: A teaching bridge.
Certifications and practice

Q: Versions?
A: Dated.
Certifications and practice

Q: Session goal?
A: Object plus the page.
Certifications and practice

Q: Skip uncertain notes?
A: No.
Certifications and practice

Q: Campaign types?
A: Three.
Certifications and practice

Q: Boss logs?
A: Synthetic.
Certifications and practice

Q: Can the lab edit your domain?
A: No.
Certifications and practice

Q: IVR export?
A: Learning file.
Certifications and practice

Q: Outage?
A: Five9 support.
Certifications and practice

Q: Uncertain?
A: Confirm before you depend on it.
Certifications and practice
