Default is a queue, not a compliment

If Skill Transfer has no skill selected, the article says calls go to users who are not assigned skills. That queue is labeled Default in the softphone. It is a catch-all, not a place you want billing calls.

Supervisors and agents with empty skill lists become the Default pool. An empty list is easy to create when a user profile is cloned and skills are forgotten.

Treat Default as a catch-all

Name a skill on every transfer
