The domain has neighbors

A Five9 domain does not live alone. Voice arrives on a SIP story. Agents sit in a desktop. WEM or a partner workforce suite watches the roster. A CRM pops. GenAI Studio may draft a summary. E911 carries a location. Reports leave through a role and an API.

The ecosystem page in this lab is a map of those neighbors with the same citations as the lessons. If a box has no link, it does not belong on the map.

Name the neighbors

Give each one its own failure
