A study week that stays inside the documents

Six sessions cover the floor without a fake exam. One: planning order and skills. Two: inbound, lists, and the three campaign types. Three: dial modes and the abandon warning, plus the pacing lab. Four: IVR modules and the builder. Five: desktop, CRM, and WEM as neighbors. Six: SIP stories, E911, retention, and one boss incident.
Each session ends by opening the page, not by highlighting this lab. The lab is a door.
End each session on the cited page
Read the uncertain notes
