Dated notes

- 2022-11: E911 data sheet on the public site names emergency services and RedSky. The PDF date is in the file path. Treat coverage claims as dated. E911 data sheet
- 2023-04: University curriculum brief names online, webinar, instructor-led, train-the-trainer, and custom formats. The live catalog wins if they differ. University curriculum brief
- 2026-03: Technical-requirements change log says Studio 7 network text was clarified for GCP and for CHI/VIR, and callback, email, and VoiceStream IP notes were updated. This lab does not copy those IP ranges. Technical requirements PDF
- 2026-07: The same change log consolidates Verint Workforce Optimization IPs and mentions added domains for US, Canadian, and European centers. IP lists move. Use the PDF, not a copy in this lab. Technical requirements PDF
- 2026-07-14: A community article describes the call log as a filtered window of about 60 days unless retention is extended. Re-read it before you promise an archive. Call log filters
- 2026-08-01: Java-based Agent Desktop and Supervisor Desktop are no longer on the customer portal after this date. The page tells people to use Agent Desktop Plus and Supervisor Desktop Plus. Java VCC Administrator remains documented, including a web launch. Java application requirements
- 2026-09-25: VCC Administrator via Web is documented as a browser launch with no local Java. The page lists gaps versus Java admin: usernames with spaces or non-English characters, some audio playback, HTML script preview, Trusted IP bypass, and Cmd+A. VCC Administrator as a web application

A note from the student behind this lab

This is an **independent, free, learning-only student project**. It respects every company and vendor, and every trademark belongs to its owner. It is **not affiliated with or endorsed by** any of them.

If anyone has a concern, the content will be removed or corrected promptly via the contact form at https://cyphermonkeylabs.com/#contact. Nothing here is sold. Happy to volunteer for any organization.

Confirm before relying on a number, a port, or a vendor case-study claim. Product behavior belongs to the cited page.
